New school planning permission support

Friday 24th May 2019

Dear Parent/Carer,

I just wanted to give you a quick update on the plans for the school relocation. You may have seen in the local press that we have now submitted an application for planning permission for the new school, approximately 800m from our current school site, in between Whittington Way and St James' Way, part of the planning area known as Bishop's Stortford South.

As you know, we aim to provide a brilliant new learning environment for our students, one they very much deserve, whilst retaining the strong ethos and proud traditions that help make our school Outstanding. We hope to create a fantastic site that combines high-quality teaching spaces and excellent enrichment facilities to support our superb extra-curricular programme, which will provide great benefit to the whole community.

We, therefore, ask you to support this application by visiting the East Herts District Council planning portal, using the link below, where you can add your positive comments, on the need for the school to move into buildings that are fit for purpose.

<https://publicaccess.eastherts.gov.uk/online-applications/>

Application: 3/19/1058/CPO

Furthermore, we will shortly be applying for planning permission for our existing school site, so that it can be sold for residential use. This sale, which already features in the District Plan, will help us finance the new school build.

We really do appreciate your assistance in helping us produce a superb school to cater for the needs of our students and the community, long into the future.

Kind regards,

Mr Dale Reeve
Headteacher

TBSHS: A truly all-round education
